Taps & Bath Accessories

Company Profile

Maruti Polytech LLP (GreenWave) was envisioned and established in the year 2000. Over the years, it has earned a strong reputation in the market and has grown into a corporate company with significant achievement for all round growth.

The company specializes in designing and manufacturing high-quality bath fittings, accessories, and PVC fittings of global-standard. With a strong commitment to health and safety regulations, we maintain a strict zero-tolerance policy to ensure flawless product performance.

We have evolved strategic partnerships with global leaders in the PTMT Bath Series.

Our products are meticulously designed to enhance the visual appeal and functionality of architectural spaces. Backed by a state-of-the-art production line equipped with the latest precision machineries, we ensure maximum efficiency in our production output. Every detail is considered & ergonomics are worked out to optimize operational efficiency, and provide effective prime service at every stage.

Customer satisfaction is our highest priority and the core motto of our company.

Policy Statement of MARUTI POLYTECH LLP. (GREENWAVE) Quality Policy

The success of Maruti Polytech LLP (GreenWave) is a result of the sincere dedication of our skilled workforce, the technical expertise of our engineers, and the visionary leadership of our directors. Their strategic guidance and well-founded management have played a pivotal role in our journey of growth and excellence.

We warmly welcome any inquiries you may have and would be pleased to provide the precise information at your convenience. We look forward to building a strong, positive, mutual business relationship.

Why GreenWave P.T.M.T. SYMET Bath Fittings ?

The GreenWave P.T.M.T. SYMET composite material blends the superior qualities of both metals and plastics. Below is a summary of the key advantages of this innovative material:

Toughness:

The material maintains the strength and durability typically found in metals.

Temperature and Stress Resistance:

It is capable of withstanding extreme temperatures enduring physical stress, characteristics commonly associated with metals.

Light Weight:

A key advantage of plastics, this material retains its lightweight property, offering ease of use and efficiency.

Atmospheric Immunity:

The material is highly resistant to environmental conditions, such as corrosion, overcoming one of the main limitations of metals.

Cost Effectiveness:

By combining the best properties of both metals and plastics, this material provides a cost-effective solution that outperforms other alternatives.

Zero Drop Advantage

It is now a mandatory regulation to conserve water and prevent any waste. In fact, there is a severe shortage of potable water worldwide, to address the same, GreenWave P.T.M.T. SYMET faucets are ingeniously designed with a Zero Drop feature, ensuring that not a single drop of valuable water is lost once the faucet is turned off.

Spring Foot Valve

GREEN WAVE®

SPRING FOOT VALVE

APPLICATION

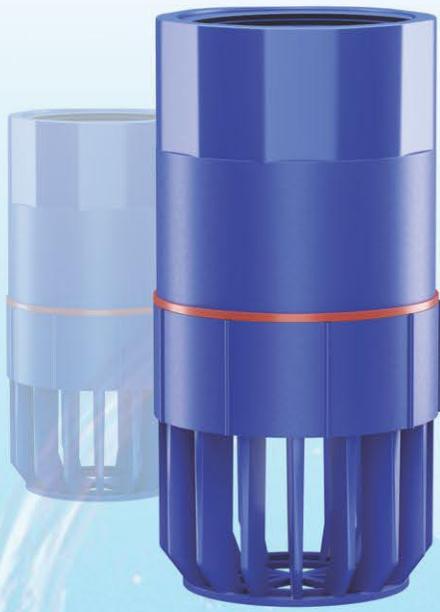

GreenWave Foot Valves are a spring-loaded non-return valve with a screen which are used at the suction end of pump lines to prevent loss of water and pump prime.

FEATURES & BENEFITS

- Install at any angle
- Durable, versatile and non-corrodible materials
- Can be taken apart for cleaning
- Does not restrict flow
- Spring-loaded

HOW IT WORKS

- Plunger opens fully when pump turns on
- Water flows through valve
- Plunger securely closes & seals
